When I was going in a bus I was thinking that they all are big children but I saw very small children and old people suffering from fever and all other things but by looking at them. I am very scared.

I am very thankful to God that I am not effected with any fever and all those things I have my parents but their parents had passed away. I spoke to all of them they were very happy when we visited there.

We gave gifts all were happy. They danced and sang a welcome song I like that dance and boys danced then they gave a speech a girl and a boy. I liked visiting that place at Gajwel. I want to go “again and again”

### **A TRIP TO ASHA JYOTHI**

We had a wonderful and memorable experience visiting Asha Jyothi – a home for the AIDS / HIV affected children. Today 22<sup>nd</sup> Jan, 2017, Sunday. I along with teachers, Vice-Principal and some students of class VII, VIII and IX visited this rehabilitation centre.

When we reached the Ashram, we were welcomed by the fantastic dance of these children. Then these children presented bouquets to brother, teachers and students. After that we had some inspiring and thought provoking speeches from our brother, teachers and Dr. Ashish.

We then mingled with the children and interacted with them. We gave them toys, medicines, sweets and snacks as a token of love to them. We then danced with them to make them feel one among us. I noticed that although these children were suffering from a deadly disease yet they had a wonderful smile on their faces. Luckily all these memorable moments were captured in a camera.

While going back I was thinking that if it wasn't for Asha Jyothi, these children wouldn't have neither 'Asha' nor the 'Jyothi' to fight against this dreaded disease.

I thank our Principal Rev. Dr. Bro. A. Anthony Reddy for giving us this wonderful opportunity to visit Asha Jyothi. I'm also thankful to all the teachers and Vice-Principal for accompanying us in the whole trip.

After meeting these children I learnt that we must never give up easily and should always keep fighting against any kind of difficulty. This trip was enjoyable and much more knowledgeable.

**FEELING ON ASHAJYOTHI CHILDREN**

On 22<sup>nd</sup> January, Sunday a few students from 7<sup>th</sup>, 8<sup>th</sup>, and 9<sup>th</sup> Classes in the guidance of Brother Anil Reddy and three more teachers visited to Asha Jyouthi, Home for children suffering from HIV/AIDS. We were also accompanied by Dr. Ashish Chouhan.

Asha Jyothi is situated in Gajwel Mandal in Medak District. We started at 8:30 am and reached there 10:30 am. After reaching there we tried to interact with the children. There were total 35 children suffering from this dangerous disease. We asked their names, their class etc... We were amazed to see their will power as there were so happy instead of having so dangerous disease there was a wonderful welcome dance by those children they welcomed us with bouquets. There was a short introduction on Asha Jyouthi by the Father Alwin, Director of Asha Jyothi. Then we distributed toys, medicines, biscuits etc. The best moment was the smile on the children's faces. After receiving the toys we too were very happy as because of us some other children smiled.

From this trip I have learnt that never worry if you have any disease, make your will power strong you will forget about the disease. I would like to thank Rev. Bro. Dr. A. Anthony Reddy, our Principal to give us this golden opportunity to visit Asha Jyothi. I would also thank Rev. Bro. ### **OUR VISIT TO THE ORPHANAGES**

“The love in your heart isn’t kept there to stay, love isn’t love until you give it away.’

Helpfulness is indeed a wonderful act. God loves the people who willingly take a step forward to help others. We too got an opportunity to help our underprivileged friends, by being a part of the Montfortian Brothers attempt to serve the society.

A group of four students, accompanied by Mohila Rani Ma’am departed from the school at 11:30 am for this noble cause. Some of the basic products such as soaps, clothes, bed sheets were distributed to the needy. First we visited the Balika Nilayam, Orphanage for girls. We were amazed to see the clean and green environment. Later we were informed that all the works of the orphanage were undertaken by the girls themselves. Then we left for the Don Bosco Orphanage for Boys. An interaction with the students revealed that all of them had come from far off villages. The discipline of the students is noteworthy. There were no teachers around yet the students sat in a disciplined manner. After a while we left for the Anees-ul-Gurba home. The students had to follow a thorough timetable that helped them complete their work. The Little sisters of the Poor was our next stop. The place was hygienic and no litter was found around. Then we left for the ‘Home of the Disabled’. It was a heart touching sight at first seeing all the disabled people around us. Thought they were physically handicapped, They never let this problem separate themselves from the others. They lived just as happily as we do.

This trip has been a memorable one. There is just one way to sum up this trip. We may have all the wealth and luxuries of the world but we lack the greatest wealth- SMILE. No matter if the condition of our living is poor we can surely overcome all our problems with a simple smile.

### **OUR VISIT TO THE ORPHANAGES**

“The best way to find yourself is to lose yourself in the service of others”. – Mahatma Gandhi

It is rightly said that a school which encourages the students to participate in school services help to shape the character of the child. If a child is taught to help and console the suffering from his childhood, he will definitely be a better citizen tomorrow.

My visit to the orphanages on 4<sup>th</sup> of October, with my school filled my heart with compassion. We first visited the guild of service Samaja Balika Nilayam i.e. house for the orphan girls. School and college going children stay there. They are raised by the care takers who treat them like their own children.

We then visited Don Bosco Navajeevan which is the home for boys. When we went into their dining hall to meet them, we were surprised to see everyone sitting in a line silently without anyone’s guidance. The children there were very happy with our visit.

Our next visit was Anees-ul-gurba orphanage. They had Dussera vacation and so we were told that most of the students were at their villages, so we could meet to a few children, bearing with happiness at our visit.

And then we visited the home for the disabled. Everyone there had abnormalities. My heart was melted when a few of them greeted us with happiness. After visiting the home for the disabled, we all realised that how lucky we are with a healthy body. We all were really sad when we saw them suffering.

My visit to these places truly taught me humanity, love, compassion and helping others. I promised myself to visit these places again. I promised myself to make friendship with them and not to make them feel isolated.

#### **OUR TRIP TO THE ORPHANAGES**

On 4<sup>th</sup> of October, Dhruv, Ishita, Kshetra and myself under the guidance of Mohila mam were taken to 5 different places to donate different household items to the needy. We first went to the guild of service. Where girls aging from 5-20 were being taken care of. We met the teachers there and came to know about various problems they suffer. We then proceeded to Don Bosco where boys were being taken care of. We interacted with them and saw their bedrooms, study hall and so on. We even saw their daily schedule. I was delighted to see that they pray before eating and study 4 hours a day. They were very happy after seeing the gifts we donated them. They thanked us with a huge smile on their faces. We then left for Anees-ul-Gurba and handed over the items to the manager. We then went to the home for the disabled. After donating the materials, we went around to interact with the people there was joy and happiness all around after they saw us. We were pleased to see various varieties of flowers, birds and the best was ostriches. We felt sad after seeing people there who were mentally and physically retarded. Our best destination was – ‘Little Sisters of the Poor’. We handed over the house hold materials and were talking with the mother there. She briefed us about the condition there and the emergency requirements.

We came back at around 2:00 pm and were tired. But the good deeds we did that day made us all happy and more energetic.

I would like to thank Rev. Bro. Dr. A. Anthony Reddy, our Principal for giving us an opportunity to help the needy.
